- + Authentic 100% custom made handcrafting without any pre-fabrication or shortcuts
- + Australian Business Quality Award Winner
- + Best of Houzz Service Award Winner

why choose dc+b roller blinds

The beauty of our roller blinds is their ability to control light, block out heat + glare + disappear when required without making their presence obvious. Whatever the size, shape or style of your window, we have a blind treatment to match in a multitude of styles + countless fabric colours, textures + transparencies.

At dc+b our blinds are proudly made in Australia which means you can be sure of a higher standard of quality, more variety + better service; all vital advantages. We manufacture our blinds ourselves which means we can charge you less + offer you more - less hidden costs means factory direct prices + more value for your money.

- + Affordable
- + Sleek + Contemporary
- + Slimline fit
- + Maximise views
- + Low maintenance

- + Made for you - Australian made, for the Australian market
- + Flexibility - Choose your style, fabric, transparency, colour, finish, control type + accessories from Australia's largest range
- + No short cuts - 100% custom designed + manufactured
- + Consistent quality - Every Blind goes through stringent quality control testing
- + Market leading - The highest quality fabrics + componentry made to last in Australia's harsh climate

compare the difference

The difference in our roller blinds is in the detail + that's important given the major investment entailed in choosing your window coverings. We use a top of the line technically superior hardware system from Rollease Acmeda. Perfected by years of extensive research + development, the system has been designed for precision operation. Our blinds are also designed with extra componentry as standard, at no extra cost, to ensure the most durable + long lasting roller blind available.

our roller blind system

- + Peace of mind with our child + pet safe controls
- + Contemporary aesthetic to compliment your interiors
- + Sleek + slimline componentry with high polish finish
- + Slender construction creating reduced light gaps
- + Smooth + quiet operation
- + Easy to lift - Reduced user effort to lift heavy blinds
- + Increased load capacity + ability to cater to large blind widths
- + Tested to withstand 10,000 full cycles
- + Slim architecturally designed aluminium bottom rails for increased strength, durability + controlled movement of blind during operation
- + Colour coded brackets + covers
- + Add on Easy-Link system controls up to three blinds on the one window perfect for open plan living

TOP OF THE LINE

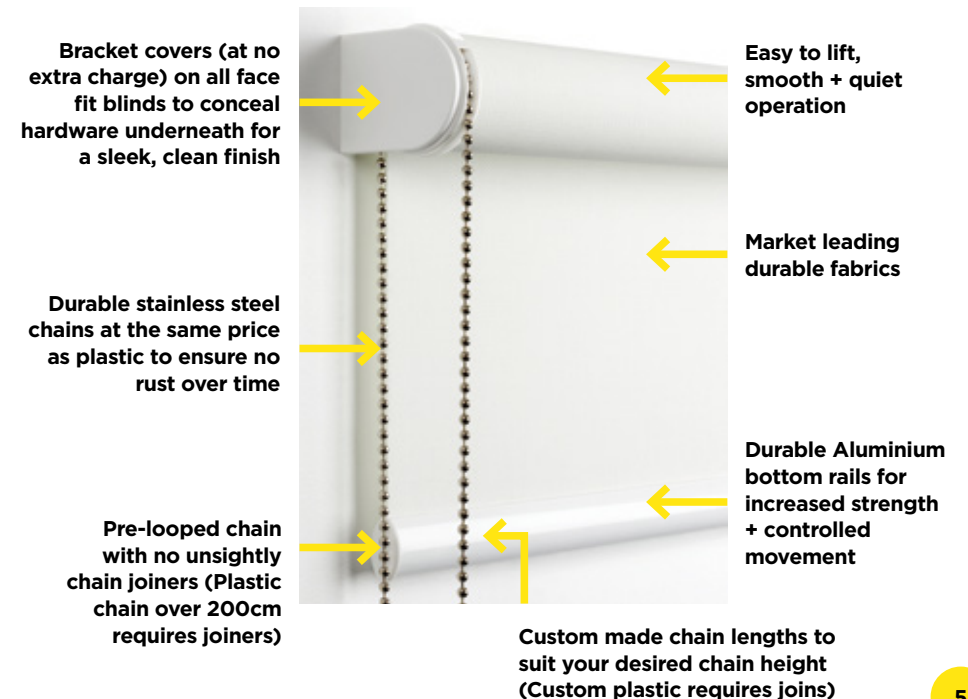

The most innovative + comprehensive roller blind system on the market

other blinds

our blinds

our customisation

Choose your install, style, fabric, finish, control type + accessories to create your own roller blinds suited exactly to your needs + all aussie-made with homegrown quality.

STEP

1

select install options

FACE / ARC FIT

- + Blind installed on window frame (arc) or wall
- + Improves blockout of light + privacy
- + When rolled up allows you to maximise your views + the natural light entering into your home
- + Ideal choice if installing our roller blind by itself on your window

RECESS FIT

- + Blind installed inside window frame
- + Ideal choice if installing two roller blinds on the one window or if layering another product over your blind
- + **Important note:** If chosen without another blockout product layered on top then there will be light gaps between your blind + window frame

double bracket has
increased strength
+ a slimline
profile

New extreme roller blinds

Our extreme roller blinds have been designed with a new market leading hardware system exclusive to DC+B, sourced directly from a leading innovator of precision hardware.

The extreme roller blind system is engineered to increase the maximum width of a single roller blind without the need to install link brackets, which link smaller blinds together across large windows or doors. The specialised design guarantees improved fabric performance across the blind's wider width.

Designed for blinds in extreme widths, consider extreme roller blinds when you have a blind that needs to be approximately 275cm or wider. However, an extreme roller blind can be made in smaller sizes, allowing you to maintain a consistent appearance across all of the blinds in your home, irrespective of the blind size.

Bracket covers are included, at no extra charge, on all face fit extreme roller blinds to conceal hardware underneath for a sleek, clean finish.

CUTTING EDGE OF DESIGN

The market leader when it comes to reliability, dependability + strength.

Benefits

- + Wider roller blinds for a streamlined, seamless finish
- + Increase light control + privacy with less blinds on one window
- + Blinds are designed to perform at much wider widths + longer drops than a regular blind
- + Available in any blind width so multiple blinds in your home can look consistent
- + Specialised design improves fabric performance

Specifications

- + White or black hardware
- + Includes bracket covers
- + 63mm roller blind tube
- + Control options include chain operated, battery operated motorisation (10Nm), or hard wired motorisation (15.0Nm)

select fabric

Fabric is an essential part of choosing your blinds. Our fabrics offer a window covering solution for every room in your home. From quality plain weaves to textured jacquards + a wide range of contemporary colours you're able to choose the fabric best suited to your light control + privacy needs.

why our fabrics

- + Australia's largest fabric + colour range
- + Trusted market leading brands
- + Quality Australian Made fabrics
- + Thermal insulation - saving you money on your energy bills
- + Coordinating blind + drapery ranges
- + Flame retardant fabrics
- + Lead + PVC free fabrics
- + UV + fade resistant fabrics
- + Easy to clean, stain + dust resistant fabrics

dc+b designs fabrics

- + On-trend exclusive blind + drapery fabrics
- + High Quality - Designed + tested to withstand Australia's harsh climate
- + We buy in bulk - lower prices + minimal waiting time for fabrics
- + Our own ranges mean less hidden costs, passing the cost savings onto you
- + Peace of mind with our three year warranty

select finish

Ensure the bottom of your blinds have the right finishes to complete your look. For a contemporary + streamlined look choose a stitched pocket or bottom rail. If you prefer a classic style go for our scallop finish with a braid or fringe. Or opt for a pop of pattern with a bonded insert in a drapery fabric.

- + Smooth + quiet operation
- + Positional bearings to provide constant manual operation
- + Ideal for classic, federation + heritage interior styles
- + Not available for bonded roller blinds + extreme roller blinds

motorised

Our Automation range is the ultimate choice for modern day living + it's now more convenient than ever. Our innovative Automate range can operate all of your home's indoor + outdoor window covering motors with the one device using ARC technology.

Our Pulse Hub allows you to accurately control your window coverings via our 'dc+b control' app on your iOS or Android smartphone or tablet, or via voice control.

Using our complimentary app, easily personalise the daily routine of your blinds; organising them by room, grouping them by scenes + automating them with timers. Unlock the convenience of smart shade operation.

For voice control, set up our Pulse Hub with your preferred devices to easily control your smart window coverings with simple voice commands through Apple HomeKit + Siri, Amazon Alexa, Google Assistant, IFTTT or SmartThings.

Our remotes are the foundation of your motorisation system featuring tactile push button controls, 15 channels, group controls + slimline wall mounts. Remote designs vary depending on the motor chosen.

- + Child + pet safe
- + Clean, seamless look
- + Easy to operate
- + Control one blind individually or as a group at one time, from a single remote
- + Operate your blinds from anywhere
- + Suitable for difficult to reach windows
- + Operate heavy window coverings with ease
- + Large lifting capacity

of motorised
options

Cutting-edge battery technology

Our battery-powered motors are a perfect option for existing households wishing to upgrade to motorised window coverings.

Automate Wire-Free Li-ion Zero motors allow for proficient installation within residential homes + small commercial projects, with no electrical wiring required.

Innovative rechargeable 1.1 + 2.0 motors boast a patented “wire-free” design with built-in lithium-ion batteries which do not require wired power or space for external battery packs. Simply plug the charger into your blind + into a powerpoint.

The solar panel charger is also available, absorbing sunlight to power your blinds.

Market leading design

For window coverings to suit medium to large windows + large commercial projects, our wired motors are the ideal hard-wired choice. These motors get connected to power, so with a permanent power supply there is no need to re-charge.

Choose from our quiet motors or extreme motors (for extreme roller blinds). Molex cables are supplied for your preferred electrician to install prior to our installation.

Our building management system motors are also available, supplied with cables to be integrated + controlled via your chosen building management system.

Connected to power, no need to re-charge

easy-link system

- + Gives you the ability to link up to three blinds on the one window + operated by a single control
- + Perfect for large or multiple window spaces + open plan living so you can join two or three blinds together
- + Reduces light gaps between blinds from approx. 30mm down to approx. 17mm
- + System provides dual control of multiple blinds for areas such as sliding doors, allowing you to control both blinds independently
- + Not available for extreme roller blinds

select accessories

DESIGN OPTIONS

Single control (to operate your blinds together)

Dual control (to reduce your light gaps)

cassettes + side channels

Add our cassettes + side channels to your blinds to minimise light penetration into rooms, increase insulation + privacy, along with concealing hardware underneath for the ultimate clean, stylish finish. Especially ideal for theatre rooms, nurseries, kids rooms or if you work night shifts.

Square cassette

Round cassette

Square cassette + side channels

Round cassette + side channels

why our system

- + Choose a square or round design to compliment your interiors
- + Innovative dim out channels for improved light blackout + energy efficiency
- + Modular system with versatile hardware
- + End cover overlap design to conceal all hardware for a premium finish
- + Advanced chain guide for smooth + quiet operation
- + Contemporary colour range
- + Premium powder coated finish

COMPLETE FINISH

- + Increased light control

- + More insulation
- + Conceal hardware

pelmet

A perfect addition over your blinds, our custom made pelmets finish off your windows + are ideal to improve your light control, conceal the blinds hardware underneath + add further insulation by trapping air at the top of your window.

Pelmets in blind fabrics

- + Choose from our blackout blind fabric range
- + Constructed with a straight base
- + Coordinate your pelmets with our rollers, romans, verticals or panel blinds
- + Choose between two styles:
Bonded - Sleeker look
Padded - Softer look

why our pelmets

- + Increase insulation + save money on your power bills
- + Increase light control
- + Conceal hardware underneath
- + Frame your windows
- + Australia's largest range of custom made upholstered pelmet designs
- + Corner window? No problem! Our angled pelmets are designed for corner or bay windows
- + Unlike others in the market, our highly skilled manufacturing team can create padded pelmets in blind fabrics to match to your blinds

Pelmets in drapery fabrics

- + Choose from our soft furnishing/ drapery fabric range
- + Choose from our range of shapes
- + Padded for a softer look
- + Coordinate your pelmets with our curtains + cushions
- + Choose from hundreds of print, stripe + floral fabrics + reflect your personal style

layer up

- + Layering window coverings is a must to achieve a well designed finish on your windows
- + Choose from Australia's largest range of custom made curtains, roman blinds, pelmets, valances + swags + tails
- + Layer our sheers over blinds for softness, texture + movement
- + Add warmth, blockout all light, + give the illusion of height to rooms with our curtains layered over blinds
- + Choose from our curtains+ complimentary making range so you won't be charged for the making costs of your curtains
